TUPUNGATO · MENDOZA

## DESQUICIADO CABERNET FRANC 2015

This wine is sourced from Gualtallary, Tupungato, in the heart of Uco Valley, from a 5 year old vineyard producing 2 tones per acre. The soil profile is also shallow rocky limestone, but with a bit of clay.

Desquiciado Cabernet Franc 2016 is made of 90% of Cabernet Franc, 5% of Petit Verdot and 5% of Merlot.

Vinification is made in different bins with different methods. Many microvinifications are made by hand from the moment they enter the winery until the fermentation is over. The different bins are then blended in stainless steel and then 100% aged in barrels of 3rd and 4th used for 9 months.
